Importantly, this is only the first of many pocket travel guides that will cover places such as Bangkok, Thailand; Havana, Cuba; Moscow, Russia; Amsterdam, Netherlands and dozens of other cities around the world. Our travel guides are made specifically for single men looking for exotic women and adventure abroad. Most travel guides available in stores only provide information on cultural interests like museums, historical sights and landmarks. Our unique guides pick up where these leave off, showing single men how to have the ultimate travel experience. In our travel guides you will find: - Best clubs & lounges! - Best singles nightclubs! - Best singles restaurants! - Best pick-up spots! - Best strip clubs - Best termas (massage parlors)! - Best hotels for singles - Best apartments for singles - Best private parties & more! The first guide available is for Rio de Janeiro. The purpose of this guide is to compile all of the most important information in one convenient place for our single male customers. This way they dont have to scribble notes on a piece of paper, try to find an Internet cafe, or rely on hotel concierge to find the nightlife, women or travel info men are looking for. Customers simply bring the guide with them on their next trip and they are ready to hit the ground running. We even took the time to highlight our personal favorite locations so that men can guarantee themselves the time of their life

on their next exotic vacation. At only \$14.95, its an easy sell. After all, theyve most likely spent over \$1,000 on their trip, whats \$15 to guarantee that they dont waste valuable time looking for the right places while on their trip? People frequently ask us how we came up with the idea for the Single Mens Travel Guide. Frankly, we were fed up with the lack of reliable information for single men looking for single women abroad. We had to find bits and pieces of information on the web, scribble the info on a piece of paper, then keep that paper folded in our pockets while on the trip. The paper never lasted for more than a few days before it was torn to shreds, lost, or made completely illegible by rain or some other calamity. We figured other guys must be experiencing the same things, and we were right. So we set out to create a guide that would be concise and to the point, containing only the information single guys value the most--WHERE THE WOMEN ARE! Now guys no longer have to worry about where to go or what to do when they get there. Its all there for them in this pocket-sized travel guide.
