

American Alpine Journal 1999, Vol. 41, No. 73

Published annually since 1929, The American Alpine Journal is internationally acknowledged as the world's finest journal of its kind. The latest volume of climbing journal of record offers the most complete picture available of the world of climbing for 1998. From articles that present the climbing possibilities of Antarctica and Africa, to stories on the new bigwall frontiers of Mexico and Madagascar, to the alpine sagas on Bhagarathi III and Khan Tengri, and the emergence of the former Soviet climbers on the world stage, the 1999 AAJ continues its tradition as mountaineering's institutional memory.
