

Human Diastrophism: The Love & Rockets Library - Palomar Book 2

256 pages. Celebrating its 30th anniversary in 2012, the complete Love and Rockets library is finally going digital with this series of compact, thick, affordable, mass-market volumes that present the whole story in perfect chronological order. This volume collects the second half (following *Heartbreak Soup*) of Gilbert Hernandez's acclaimed magical-realist tales of Palomar, the small Central American town, beginning with the landmark *Human Diastrophism*, named one of the greatest comic book stories of the 20th Century by *The Comics Journal*, and continuing on through more modern-day classics. *Human Diastrophism* is the only full graphic novel length Palomar story ever created by Gilbert. In it, a serial killer stalks Palomar -- but his depredations, hideous as they are, only serve to exacerbate the cracks in the idyllic Central American town as the modern world begins to intrude. *Diastrophism* concludes with the death (the suicide, in fact) of one of Palomar's most beloved characters, and a postscript that provides one of the most hauntingly magical moments of the entire series as a rain of ashes drifts down upon Palomar. Also included are all the post-*Diastrophism* stories, in which Lubas past (as seen in the epic *Poison River*) comes back to haunt her, and the seeds are sown for the Palomar diaspora that ends this dense, enthralling book. *The Love and Rockets Vol. 1* reprints may be my favorite publishing project of the last five years, and there are a lot of fine projects going on... the smaller, bargain-priced volumes [are] the perfect vehicle for that material, the best comics series of all time. - Publishing Project of 2007, *The Comics Reporter*
